Matteson

1.0 Overview

1.1 Introduction

The Lead Service Line Replacement and Notification Act (Act), State of Illinois Public Act 102-0613, went into effect on January 1, 2022. This Act required that every owner or operator of a community water supply (CWS) that has known or suspected lead service lines (LSLs) create a plan to replace each lead and galvanized service line (if connected downstream of lead piping); submit that initial plan to the Illinois Environmental Protection Agency (Agency) by April 15th, 2024; submit by April 15th of each year after 2024 until 2027 an updated lead service line replacement plan to the Agency; and submit by April 15th, 2027 a final lead service line replacement plan to the Agency. The Act also requires that the plan is posted on the community water supply's website.

The Act also requires that the plan is posted on the community water supply's website. This Plan will be updated at least each April as the Village updates its replacement program.

The Village of Matteson has prepared an initial Lead Service Line Replacement Plan (Plan) in compliance with the Act and its requirements. The Plan includes the name and identification number of the CWS; an inventory of the total service lines, known and suspected LSLs, and LSLs that have been replaced since 2020; a proposed replacement schedule; a cost analysis with financing options; a prioritization plan; community outreach measures; and workforce development measures.

2.0 Background Information

2.1 Location

The Village of Matteson is located in Cook County in northeastern Illinois approximately 32 miles south of downtown Chicago in Cook County, IL. The Village is bounded by Tinley Park to the north, Richton Park to the south, Olympia Fields and Park Forest to the east, and Frankfort to the west. The Village corporate boundaries encompass an area of approximately 9.32 square miles.

2.2 Community Water Supply (CWS)

The Community Water Supply (CWS) is named Matteson and is IEPA Water System No. IL0311800. The CWS serves a population of 21,000 and has 7,002 service connections as reported to the IEPA and posted to Illinois.gov under the Illinois Drinking Water Watch.

A service line is the small diameter pipe that connects the water main to the interior plumbing inside a building. The CWS takes ownership of the service line from the water main to the water shut-off valve or Buffalo Box (b-box)/curb stop while the property owner takes ownership of the service line from the water shut-off valve or Buffalo Box (b-box)/curb stop according to the City's Code of Ordinances, listed in Appendix 1. The b-box/curb stop is typically installed near the property line.

Service lines can be made of the following materials: copper, galvanized iron, lead, cast or ductile iron, or PVC. Since the CWS owns and maintains one portion and the property owner owns and maintains the other portion, there is a possibility that the CWS owned portion and property owner portion may be different materials.

A graphic of a service line is included in Figure 1.

Figure 1. Service Line Graphic

3.0 Lead Service Line Inventory (LSLI)

3.1 Summary

The definitions of water service line materials in the CWS's inventory adheres to the definitions provided by the Illinois EPA. These definitions are outlined in the table below.

Service Line Material
Copper – No Lead Solder (C)
Galvanized Requiring Replacement (GRR)
Lead (L)
Cast/Ductile Iron (O)
Unknown (U)
Unknown Not Lead (UNL)

The CWS has made ongoing efforts to complete its inventory. These efforts include those listed below: reviewing resident surveys, water meter replacement records, a property's building age, exploratory excavations at targeted locations, visual inspection of interior service lines, and predictive modeling for properties without known material type.

- **Building Age:** For those buildings constructed after 1986, service lines are assumed to be non-lead on both the public and private sides.
- **Visual Identification:** The CWS staff recorded service line material when entering private property.
- **Resident-Provided Photos:** The CWS distributed a survey in which residents could provide photos of their service line. A sample survey mailer is included in Appendix 6. Trained staff identify the service line material based on the photos and the photo and material are recorded and saved on the CWS GIS.
- **Exploratory Excavations:** Very few records contain information on the public-side service line material. A contractor excavated in the parkway to determine public-side material at select locations to determine lead density throughout the service area.

- **Predictive Modeling:** T A machine learning model was used to predict the material of the service line for those addresses that do not have historical records, could not be visually verified, do not have a survey response, and where the contractor has not completed an exploratory excavation.

The current inventory includes:

- The total number of services lines in the CWS for the current year;
- The material composition of each service line in the CWS's distribution system;
- The count of suspected lead service lines identified since the last inventory submission;
- The number of suspected or known lead service lines replaced since the last inventory submission

A copy of the inventory submitted to the Agency that lists the total number of service line connections, total LSLs, and total suspected LSLs is included in Appendix 2.

Service Line Material	# of Services
Lead (L)	576
Unknown (U)	0
Galvanized Requiring Replacement (GRR)	4
Not Lead	6,430

3.2 Previous Replacements

The CWS began replacing lead and galvanized services in the winter of 2025. One hundred and fourteen (114) services have been replaced as of April 15, 2025. These replacements are listed on the inventory spreadsheet in Appendix 2.

4.0 Funding Considerations

The funding sources for the Lead Service Line Replacement (LSLR) Program will be considered and evaluated in this section. The CWS plans to use the State Revolving Fund Public Water Supply Loan Program (SRF PWSLP) administered by the Illinois Environmental Protection Agency (IEPA) to fund the LSLR Program. The SRF PWSLP awards funding on an annual basis for LSLR programs. The CWS has pursued funding for the last three years and will continue to pursue funding until replacements are completed.

Based on an inventory of 580 LSLs and a replacement cost of \$11,000, the CWS will need \$6,380,000 to fund the entire LSLR Program. The CWS will plan to replace the maximum number of LSLs covered by the SRF PWSLP each year.

4.1 SRF PWSLP

The IEPA SRF loan program awards loans according to census tract scoring that considers demographic information that will be discussed in more detail in the Prioritization section.

The CWS has received one forgivable loans totaling approximately \$3 million to date. The CWS has also applied for an additional forgivable loan in the amount of \$4 million. Should the CWS be awarded the third year of funding, all replacements will be covered through the SRF PWSLP with no additional expense for the CWS or its water users.

The CWS has been awarded \$2,755,000 in SRF PWSLP funding in Fiscal Year 2024. This funding is expected to be sufficient to replace 275 LSLs. The CWS has applied for another year of funding and would need approximately \$3,000,000 to complete the remaining replacements. The table below lists the funding used for the LSLR Program.

The SRF PWSLP funding is awarded based on census tracts and therefore can only be used in certain areas of the CWS. The project area for each forgivable loan is identified in the Prioritization Map in Appendix 3. The Prioritization

Map only includes those areas of the CWS that have LSLs; any area not included in the priority groups on the map do not contain lead water service lines.

Funding Year	Amount	Construction Timeline	Expected LSL Replacements	Project Area
FY2024	\$2,755,000	January 2025 - July 2025	275	Priority Group 1 – Appendix 3
FY2026	\$3,625,000*	October 2025 - January 2027	305	Priority Group 2 – Appendix 3

*FY2026 funding has not been announced at the time of publication of this Plan. The amount listed in the table is based on what the CWS needs to replace the remaining LSLs and not what has been awarded.

5.0 Prioritization

The CWS has a limit of replacements that it can achieve each year. There are only so many contractors available to do replacements each year, and there is a lack of contractors to focus on such a large scale project in a single year. There is also a significant amount of logistics involved in coordinating with property owners to obtain permission to enter a property to complete the replacement, and the work required to gain permission to all properties on a street takes a significant amount of time. The CWS is also committed to completing the replacements without taking funds from the water and sewer fund, raising water rates, or requiring property owners to pay a portion of the replacement cost. As a result, it must adopt a prioritization framework for choosing which neighborhoods will be included in each year's replacement project.

5.1 SRF PWSLP

The SRF PWSLP funding is awarded to the highest scoring applicants until funding is exhausted that year. The forgivable loan for each year must be used for LSL replacements within the census tracts that are submitted on each annual application. Each application is scored according to demographic data of each tract, and the highest scoring applications are awarded funding. Therefore, in order to maximize the amount of funding the CWS receives, the project areas are prioritized according to the SRF PWSLP scoring system.

The CWS will also prioritize replacements in high-risk facilities such as daycares, schools, parks, hospitals, and nursing homes within each project area.

The scoring system developed by the IEPA for the SRF PWSLP is included in Appendix 4.

5.2 Emergency Work-related Lead Service Line Replacement (EW-LSLR)

LSLR instances arising from emergency repairs often require an on-call contractor to complete the work of drilling a service line into a private building. The IL LSLR&N Act states that the CWS must provide the option of replacing a property owner's service line if the property owner requests the full replacement. The CWS is not required to fund the full replacement. Funding terms will be discussed at the time of the work.

The CWS shall consider developing an on-call contractor pool through a qualifications process that can bid on individual project's emergency work.

6.0 Lead Service Line Replacement (LSLR)

6.1 Scope of LSLR

The work shall consist of the removal and replacement of lead or galvanized iron water services for buildings within the specified service area. The area will be determined based on prioritization, material, building age, and funding limits, but all will

be within the corporate boundaries of the CWS. New copper service lines shall be installed for full and partial lead service line replacement. Full lead service line replacement shall be defined as connecting from the water main to inside the building. Partial service line replacement shall be defined as connecting from the curb box (B-box or buffalo box) to the water main. No lead piping will be left in the water system. Partial replacements will only occur where the existing service is partially lead or galvanized. Cross-sectional replacement details are included in Appendix 5.

Replacements will begin in Census Tract 8302.01. These replacements are expected to last two years at the mandated replacement rate but will depend on the maximum amount of annual IEPA SRF funding received.

6.2 Replacement Methods

The methods of installing the new service are described below. To minimize impacts to residential property and to reduce restoration, trenchless methods are preferred.

Open cut: Open cut trenching is the typical method used by plumbers, especially for properties slated for demolition and replacement. It involves digging a trench, which can cause significant exterior disruption to property owners. Interior disturbances depend on whether the basement is finished. Despite its disturbance, open cut trenching is often the most cost-effective option, particularly when restoration costs are minimal. This approach is advised based on individual circumstances.

Trenchless: Trenchless installation of water services is being explored to address concerns such as economic impact, landscape disruption, and social inconveniences associated with traditional open cut methods. Advances in trenchless technologies offer a more efficient alternative in certain situations, minimizing surface disruption and restoration time. These methods are socially appealing as they cause less destruction and require less restoration compared to open cut techniques.

Standard Horizontal Directional Drilling: Standard Horizontal Directional Drilling (HDD) involves using a drill rig on the ground surface to create a tunnel underground. To reach a depth of about 5'6" below the ground surface, the drill rig head must be positioned approximately 30 feet away from the final depth point of the water service. This may require closing the road for safety. While many pipeline and cable contractors employ this method, plumbing contractors often subcontract it out as specialty work.

Pipe pulling: Pipe pulling is the most cost-effective method among trenchless options for installing water services. It involves using the path of the existing pipe, eliminating the need for additional excavation. A new water service pipe is pulled along the existing route, often with a winch or excavator bucket with a cable. The new copper service is connected to the existing lead service in the home, effectively replacing it using the borehole left by the removed lead pipe.

The connection to the water main typically incorporates the use of a tapping sleeve and is done by a licensed plumber. The licensed plumber also connects the new service line to the existing water meter inside the house according to the State of Illinois plumbing code.

Prior to beginning the work of connecting the new service inside the house, the water supply to the service line and the property owner shall be shut off to avoid release of particulate lead into the property owner's premises. After all connections have been completed, the Contractor shall flush the water from an outside connection (such as a hose bibb or hose leading from the building side of the meter) to remove any particles in the service line. Flush at full velocity for at least 30 minutes. The Contractor shall then advise the property owner to flush the interior premise plumbing in accordance with the instructions provided in the Owner-provided informational material. This work shall be conducted in accordance with AWWA C810-17 – Replacement and Flushing of Lead Service Lines.

Prior to completion of the work, the Contractor shall provide each address that received a new service line with a Point of Use water filter that meets both NSF/ANSI 42 and 53 certifications for lead reduction with a minimum capacity of 0.5 gallons and six months of replacement cartridges or a minimum of 150 gallons of filtration capacity. The filter shall not be a permanent faucet filter. The Contractor shall have the resident provide a signature to acknowledge receipt of the filter on a form provided by the Village. The form shall be turned in with other documentation.

Three to six months following the replacement, the property owner will have the option to request a water sample from their tap to test lead levels. The contractor will coordinate delivery of the sample bottle and instructions, pick-up of the sample bottle, delivery to the laboratory, testing of the sample, and distribution of the results.

The Village will use these standards when performing lead service line replacement:

Item	Condition
1. Restoration of Interior and Exterior	Meet existing condition or better
2. Parkway/Yard Restoration	Sod, Seed in Summer
3. Field Locate B-boxes	Location by Village
4. Trench backfill	CA-6
5. Verify B-box operation at Project Completion – after surface restoration	B-boxes keyed by Village
6. Street Cross Sections	Minimum 6-inch pavement patching
7. Work Hours	Monday to Friday 7 am to 7 pm Saturday 8 am to 7 pm No Work Sunday or Holidays, except Contractor my Schedule meeting/inspection at buildings on Sunday.
8. Meter Pits	Village will be consulted prior to relocating meter to building interior and abandoning the meter pit. Contingency Pay Item for this work included in contract.
9. B-box	Mueller H-10302, Minneapolis Pattern or approved equal
10. Curb stop	Mueller Ball Style: H15150 or approved equal
11. Corp Stop	Mueller H-15000 or approve equal
12. Saddle for corp stop	Cascade CSC-2 or approved equal
13. Abandon existing Lead Service Line	Close corp stop; remove lead service from main; remove corp and reuse direct tap by placing tapping sleeve and peen end of lead service. Use abandoned corporation fitting for winter time.

6.3 Completed LSLR

The CWS has completed one hundred and fourteen (114) replacements as of April 15, 2025. These replacements are listed in the inventory spreadsheet in Appendix 2.

7.0 Workforce Development

In performing projects associated with the Lead Service Line Replacement initiative, the CWS plans to develop the workforce available to perform these projects. These developmental practices include:

Smaller bids: The CWS will break the required replacements into smaller projects within the CWS, so that the bids will be smaller and more attainable for smaller firms.

College engagement: The CWS will engage with local colleges and institutions to train new individuals entering the workforce.

Hiring local: The CWS will include a clause within the scope of work for interior work and inspections to be conducted by local contractors who have an understanding of the community.

Experience contractor teaching: An experienced contractor teaches a smaller contractor how to perform the work.

Diversity in hiring practices are another aspect to workforce development and would include contacting all local MBE and WBE contractor associations during bidding.

The Contractor shall also take the following specific affirmative action to ensure equal employment opportunity:

- Ensure and maintain a working environment free of harassment, intimidation, and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites or in such facilities.
- Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organizations' responses.
- Maintain a current file of the names, addresses and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union or, if referred, not employed by the Contractor, this shall be documented in the file with the reason; therefore, along with whatever additional actions the Contractor may have taken.
- Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.
- Develop on-the-job training opportunities and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor.
- Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.
- Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination, or other employment decisions including specific review of these items with onsite supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.
- Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

- Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.
- Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a contractor's work force.
- Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.
- Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.
- Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.
- Ensure that all facilities and company activities are non-segregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.
- Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.
- Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

8.0 Resident Communication and Outreach

To ensure effective community engagement, the CWS's outreach program for the Lead Service Line Replacement (LSLR) initiative will employ various communication methods aimed at informing and involving homeowners. Central to the program's success is consistent and informative communication across multiple platforms, including meetings, press releases, door-to-door notifications, and social media channels. By leveraging these diverse communication channels, the program aims to raise widespread awareness about the significance of the LSLR program and the options available for homeowners to participate. Early successes of the program will be shared with the community to foster positive feedback and encourage support for the initiative.

To effectively communicate the goals and requirements of the LSLR program, a comprehensive outreach & communication plan is developed, outlining key messaging, target audiences, and preferred communication methods. Emphasis will be placed on building trust and transparency with homeowners, ensuring they understand the benefits of participating in the program. Notices will be sent to homeowners at least 45 days before the commencement of work, with repeated notifications every two weeks until confirmation of receipt. Special attention will be given to non-English speakers, providing translated notices and instructions for accessing additional resources. As previously mentioned, the Community Outreach and Public Engagement plan will be vast, consistent, and includes:

Stakeholder Identification: The CWS has Identified key stakeholders, including residents, local businesses, community organizations, schools, healthcare providers, and governmental agencies.

Educational Materials: The CWS is developing comprehensive educational materials explaining the importance of lead service line replacement, potential health risks associated with lead exposure, details of the replacement process, and available resources for assistance. The materials currently developed and used for LSLR outreach are added in Appendix 6.

Multi-Channel Communication: The CWS plans to utilize a variety of communication channels to reach different segments of the community, including:

Printed materials such as program brochures, flyers, door hangers and direct mail distributed to households, businesses, and public spaces.

Digital platforms including the village website, email newsletters, and community forums.

Information sessions and workshops held at community centers, schools, and other public venues.

Door-to-door outreach by trained community volunteers or outreach workers to engage directly with residents.

Social Media Channels: The CWS intends to utilize its social media platforms (Facebook) to engage with residents regarding lead exposure concerns. Posts will include links to informative resources on the CWS's website, as well as videos and webinars explaining lead risks and the CWS's efforts to mitigate them. Social media will also be used to announce upcoming project activities, public outreach events, and success metrics such as the percentage of lead pipes replaced.

Language and Accessibility: The CWS will ensure that all materials and communication efforts are available in multiple languages to accommodate the linguistic diversity of the community. Additionally, make information accessible to individuals with disabilities by providing alternative formats such as large print or audio versions.

Personalized Outreach: The CWS will tailor outreach efforts to specific demographics or neighborhoods within the service area, taking into account factors such as income level, age, cultural background, and housing status. Engage community leaders and influencers to help disseminate information and encourage participation.

Community Workshops and Events: The CWS has plans to organize community workshops, town hall meetings, and informational events where residents can learn more about the lead service line replacement program, ask questions, and provide feedback. Offer opportunities for hands-on demonstrations or tours of the replacement process and an avenue for public comment on the LSLR plans.

One-on-One Assistance: The CWS intends to provide personalized assistance and support to residents who may have questions or concerns about the replacement program. Establish a dedicated hotline or helpline staffed by knowledgeable personnel to address inquiries and provide guidance.

Feedback Mechanisms: The CWS plans to implement feedback mechanisms such as surveys, focus groups, or public hearings to gather input from residents throughout the planning and implementation phases of the program. Use this feedback to adjust and improvements as needed.

Collaboration and Partnerships: The CWS plans to collaborate with local organizations, community groups, schools, healthcare providers, and government agencies to amplify outreach efforts and leverage existing networks and resources.

Ongoing Engagement: The CWS will maintain ongoing communication and engagement with the community beyond the initial outreach phase. Provide regular updates on the progress of the replacement program, share success stories, and continue to address any concerns or issues that arise.

Non-Participation/Waivers: Homeowners in the CWS may not always be ready to engage with or communicate regarding the LSLR program. At present, the CWS lacks the authority to mandate homeowner access to private property or demand access for replacing the private side of the LSL. For those who choose not to participate, an Illinois Department of Public Health waiver form will be available. Efforts to communicate will be recorded for unresponsive homeowners. Nevertheless, these households will still receive complimentary point-of-use filters along with six replacement cartridges.

Appendix 1

Code of Ordinances

CHAPTER 52: WATER

Section

General Provisions

- 52.001 Water main specifications
- 52.002 No private water supply permitted
- 52.003 Abandoned water wells

Consumer Regulations

- 52.015 Rules and regulations for connections
- 52.016 Restrictions on lawn sprinkling and other water uses

Rates and Charges

- 52.030 Consumers of water
- 52.031 Measurement of flow
- 52.032 Rates
- 52.033 Faulty meters
- 52.034 Unlawful to turn on water without permission
- 52.035 Connection made with service main prohibited
- 52.036 Failure to make payment
- 52.037 Billing procedures
- 52.038 Responsibility for payment
- 52.039 Disconnection for late payment
- 52.040 Lien-notice of delinquency
- 52.041 System of accounts; annual audit

Cross-Connection Control Devices and Testing

- 52.055 Purpose
- 52.056 Application
- 52.057 Policy
- 52.058 Definitions
- 52.059 Water system
- 52.060 Cross-connection prohibited
- 52.061 Survey and investigations
- 52.062 Where protection is required
- 52.063 Type of protection required
- 52.064 Backflow prevention devices
- 52.065 Inspection and maintenance
- 52.066 Booster pumps
- 52.067 Notice to install device
- 52.068 Prohibited connections
- 52.069 Surveys and investigations
- 52.070 Right of entry of inspector
- 52.071 Disconnection of water service for violations
- 52.072 Cost of cleanup
- 52.073 Permit required

Powers and Authority of Inspectors

52.085 Right of entry

52.086 Liability

52.087 Entry onto private property

GENERAL PROVISIONS

§ 52.001 WATER MAIN SPECIFICATIONS.

(A) Water main pipe and fittings.

- (1) All water mains shall be ductile iron pipe, Class 2, cement lined.
- (2) The contractor shall have the option of using a "push-on" or mechanical-type joint.
- (3) All fittings shall have mechanical joints.

(B) Valves and vaults.

- (1) All valves shall be gate type and of a brand approved by the Superintendent of Water.
- (2) All valves shall be in vaults.
- (3) The word "WATER" in raised letters shall be on the lid of the vault.
- (4) Sixteen-inch valves shall be Butterfly type, A.W.W.A.

(C) Fire hydrants.

- (1) All fire hydrants shall be equipped with auxiliary valve and valve box.
- (2) Fire hydrants shall have a four-inch "steamer" connection and national standard threads.

(D) Sampling tap.

- (1) Two one-inch sampling taps shall be installed in the water main in each valve vault; one on each side of the gate valve therein.
- (2) These taps shall be similar or equal to that manufactured by the Mueller Company of Decatur, Illinois, as shown in their catalogue as No. H-I 500.

(E) Pressure test.

- (1) The Village Engineer shall be present at all testing of water mains.
- (2) The Engineer shall be given 48-hours' notice previous to starting the pressure test (125 psi).

(F) Chlorination report. One copy of the approved chlorination report shall be given to the Village Engineer.

(G) Copper services. Shall be one and one-half inch type "K".

- (1) Curb stop: Mueller Co. H-15160, one and one-half inch Minneapolis Pattern Copper inlet and outlet.
- (2) "B"-box: Mueller Co. H-10302, one and one-half inch Minneapolis Pattern five and one-half foot length, fully extended.
- (3) Corporation stop: Mueller Co. H-15000, one and one-half inch.

(Ord. 4107, passed 6-20-2011)

§ 52.002 NO PRIVATE WATER SUPPLY PERMITTED.

No person shall build, establish, expand or maintain a private water supply system within the village unless there shall be no public water supply system within 250 feet from the point on property of such person which is nearest the public water supply system.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

§ 52.003 ABANDONED WATER WELLS.

(A) When any water well in the municipality shall be abandoned and is no longer being used, the owner of the real estate on which the abandoned water well is located shall, within 30 days after its abandonment, seal the abandoned water well pursuant to Rule XI-A, as amended, of the State Department of Mines and Minerals, Oil and Gas Division.

(B) The owner is required to complete the "water well plugging affidavit," as required by the State Department of Mines

and Minerals, Oil and Gas Division, and to file with the Village Engineer the completely executed affidavit.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

CONSUMER REGULATIONS

§ 52.015 RULES AND REGULATIONS FOR CONNECTIONS.

The following rules and regulations shall govern all connections with the municipal mains for the purpose of conveying water to any building or premises for all uses of municipal water and the maintenance of all hydrant connections connected with the municipal water works system.

(A) No person, except a legally authorized agent of the municipality, shall take water from any public or private hydrant plug, hose, pipe or fountain except for fire purposes and for the use of the Fire Department in case of fire, nor shall any person use in any way or take any water for private use (drinking at public fountains excepted) except through a meter which shall be furnished him or her by the municipality after he or she has deposited with the Village Clerk an amount equal to the cost of the meter, connection and plug wrench, which money shall be returned to him or her on the return of the meter, connection and plug wrench in good condition. He or she shall then pay the Clerk for water used through the meter at meter rates then in effect.

(B) No person shall willfully break, injure, mar, deface, interfere with or disturb any building, machinery, apparatus, attachments or appurtenances of the municipal water works, or any public or private hydrant, or any stop cock, service plug, water or service pipe, or any part thereof; nor shall any person injure or deposit anything in any service box or commit any act tending to obstruct or impair the intended use of any of the above mentioned things, without the permission of the Board of Trustees, Water Committee or some person duly authorized to issue such permits, except in cases herein provided.

(C) No person shall make any excavation in any street, alley or public ground for the purpose of laying water pipe or connecting to any water or service pipe already laid without written permission from the Director of Community Development; and only such persons as are authorized to perform such work shall do the same.

(D) All applications for the introduction of water into any premises, or for the extension of any water pipe, shall be made to the Director of Community Development by the owner or some duly authorized person on printed blanks for that purpose to be had at the office of the Director of Community Development. The application will state fully and truthfully all purposes for which the water is required. Should the additional use of water be required, the person desiring the same must make a new application before such additional use will be allowed. The applicant must subscribe to and agree to be bound to such rules governing the use of water as may be in force at the time or may be passed from time to time by the Board of Trustees. If there is no available objection existing, the Director of Community Development will issue a permit authorizing the Village Engineer to tap the main and insert a corporation cock for such service, and place a stop cock and service box three feet inside of the curb line on the same side of the street where the premises to be supplied are located. No person, unless duly authorized by the Board of Trustees, will be permitted under any circumstances to tap the main or insert a corporation cock therein. Special permits must be secured from the municipality authorizing a licensed plumber to insert the service pipe from the stop cock into the premises.

(E) Whenever any premises becomes vacant and remains vacant for a period of 30 days or more, an affidavit served on the owner or duly authorized agent of the premises, at the written request of the owner of such premises, the water supply of such building or premises may be shut off. If the owner or authorized agent shall make a formal request that the water be turned on, at a cost of \$75, and the Director of Community Development shall cause same to be done.

(F) Service pipes will not be permitted to go from one lot to another along streets wherein mains are laid. Water must be obtained directly from the mains in front of the premises adjacent, provided that one service may be used to supply all parties occupying the same building. All service must be laid at least three and one-half feet below the surface of the ground.

(G) No claim shall be made against the municipality by reason of the breakage of any main, pipe, service pipe or cock, or for any interruption of the water supply, or by reason of the breaking of the machinery or stoppage for necessary repairs.

(H) Water will not be turned on into any house or private service pipe except on order of the Director of Community Development, nor until all the water fees or charges against the premises for which the supply is intended shall have been paid. Plumbers are strictly prohibited from turning water on into any service pipe except on order or permission from the Director of Community Development, provided this rule is not to be construed to prevent any plumber from admitting water to test pipes.

(I) No hydrant, except public drinking fountains, shall be placed within the limits of any street which has an opening for which it can be used as a source of domestic supply.

(J) Persons taking water must keep their service pipe, curb boxes and all fixtures connected therewith in good condition and protected from frost at their own expense, and must prevent all unnecessary waste under penalty of having the water shut off.

(K) Hydrants, hose attachments or valves which the consumer may adopt for obtaining water from the service pipe shall not be located as to be accessible to persons living or occupying neighboring premises, or to the public, and the water shall not be turned on in such hydrant, hose attachment or valve until the same has been removed to some unexposed place on the premises. Persons taking water are solely responsible for the water service lines from their premises to the "B" box,

a.k.a. buffalo box.

(L) Consumers of water from the water works who shall permit others not members of his or her family to use water from his or her hydrants, faucets or other devices, without first being assured by the Village Clerk that the proper rate has been paid for the use of the same.

(M) There shall be a stop and waste cock attached to every service pipe at the point where it enters the building.

(N) Plumbers shall, within 48 hours after the completion of any work in connection with the water works, make a full and complete return, on the back of the permit authorizing such work, of the number of rooms in the premises and of the contemplated use of the water therein, a complete list of the articles and fixtures used, and whether it is the first introduction of service pipes into the premises, an extension or repairs, or a thorough testing of the same. The plumber must turn off the supply from such premises at the service cock, and the water will not be turned on until after the report of the work is made. The work certificate shall be okayed by the Water Superintendent, and approved as in accordance with the rules and regulations herein prescribed.

(O) No plumber or other person shall make any attachment to any old pipe or water fixture from which water has been shut off and the supply discontinued without the party desiring such work done having made application for and obtained a permit for the same; nor shall any plumber or any person make an attachment or addition to any pipe or water fixture attached to the water works to conduct water into adjoining premises or into stables, baths, water closets, wash basins or for any purpose whatever, without having made application and obtained a written permit from the Village Clerk for each and every separate job of such modification in the water fixtures.

(P) All service pipes extending from the service cock to the inner line of the building shall be copper.

(Q) The interior plumbing of any premises must be capable of withstanding a pressure of 100 pounds to the square inch, materials and installation shall be subject to the approval and inspection of the Plumbing Inspector. The owner of the premises shall be subject to all damages due to the breaking of water pipes within the premises.

(R) No excavation or trench in any public place must be left open overnight unless the same is well guarded with proper barriers, and lights placed thereon not more than 50 feet apart. Before filling the trench or excavation, the earth must be well rammed under the main level with the top thereof. Then the trench or excavation must be filled with layers of not more than 15 inches in depth, and each layer thoroughly rammed or puddled to prevent settling. The street or alley shall be left in as good condition as it was previous to making the excavation, and all rocks, boulders, dirt and rubbish must be removed immediately after the completion of the work. Should any excavation in any street or alley be left open and unfinished for the space of 24 hours, or should the work be improperly done, the Water Superintendent shall have the right to finish or correct the work, and the expense thus incurred shall be charged to the plumber whose work is thus finished or corrected, and shall be paid by him or her or them before securing another permit.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

§ 52.016 RESTRICTIONS ON LAWN SPRINKLING AND OTHER WATER USES.

(A) The village purchases Lake Michigan water from the Village of Oak Lawn, subject to the two tier emergency restrictions set forth below. In order for the village to comply with the Department of Natural Resources' Rules and Regulations for the Allocation of Water from Lake Michigan dated January 1985, as amended November 3, 1988, commencing from May 15 through September 15 of each year, it shall be unlawful for any person to use water for the sprinkling or irrigation of lawns or gardens, except on an odd/even basis only (on odd calendar days if the last digit in the street address is odd or on the even calendar days if the last digit in the street address is even) between the hours of 7:00 a.m. and 11:00 a.m. and 7:00 p.m. and 11:00 p.m.

(B) Under emergency conditions, as determined by the Oak Lawn President or the Oak Lawn President and Board of Trustees based on the recommendation of Oak Lawn's Director of Public Works relative to the operational capacity of its water distribution system, the demands placed on the system by the users and the risk of damage to or failure of the system, it shall be unlawful for any person to use water for the sprinkling or irrigation of lawns or gardens, except during the permitted days and hours set forth below.

(1) *Tier I (Conservation emergency)*. Sprinkling or irrigation of lawns or gardens shall be permitted only on an odd/even basis between the hours 7:00 a.m. and 11:00 a.m. Notwithstanding the provisions of this division (B)(1) for Tier I regulations, new sod, hydraseed, seed and/or landscaping may be watered more frequently than otherwise permitted, upon application for and receipt of a special permit from the Public Works Department.

(2) *Tier II (Total ban)*. Sprinkling or irrigation of lawns or gardens (manually or by an automatic lawn sprinkler or irrigation system) is prohibited.

(C) The Oak Lawn President or the Oak Lawn President and Board of Trustees, or their designee, shall provide notice by telephone, facsimile transmission, e-mail, United States mail, messenger delivery or personal service to the President or the Administrator, or one of their designees, whenever the Tier I or Tier II restrictions are in effect; the notice shall specify the type of tier emergency restriction and the duration of such restriction. Upon receipt of notice that such an emergency restriction is in effect, the Board of Trustees or the President of Matteson, or their designee, shall provide notice in accordance with division (E) below of the necessity to limit or suspend the use of water within the village for the sprinkling or irrigation of lawns and gardens or for any other special purpose(s) under this code.

(D) The village reserves the right to further limit the use of water for the sprinkling or irrigation of lawns and gardens or

for any other special purposes whenever the President and Board of Trustees shall determine that the public exigencies require such action. If public exigencies so require, the President may unilaterally take such action prior to the earliest opportunity available for consultation with the Board of Trustees.

(E) Whenever the President or the President and Board of Trustees limit or suspend the use of water for the sprinkling or irrigation of lawns and gardens or for any other special purpose(s), it shall be unlawful for any person to use water for the sprinkling or irrigation of lawns and gardens or for any other special purpose(s) designated, other than during the times allowed for such use(s) of water, provided that said person has been given notice of said limitation on, or the suspension of, the use of water, from the village, by telephone, facsimile transmission, e-mail, United States mail, messenger delivery or personal service. In addition, the village shall post the notice of the water use restriction, including the type and duration of such restriction, within the customary posting place in the Village Hall, on the village's cable access television channel, its website and in any other medium normally used by the village to communicate information of public concern to the residents and public.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

RATES AND CHARGES

§ 52.030 CONSUMERS OF WATER.

All consumers of water in the municipality shall be required to receive and pay for the same through a meter installed on the service pipe of such consumers, in accordance with the rates hereinafter provided.

(Ord. 4107, passed 6-20-2011)

§ 52.031 MEASUREMENT OF FLOW.

The volume of flow used for computing basic user charges shall be the metered water consumption read in increments of cubic feet.

(A) If the person discharging wastes into the public sewers procures any part, or all, of his or her water from sources other than the public waterworks system, all or part of which is discharged into the public sewers, the person shall install and maintain, at his or her expense, water meters of a type approved by the village for the purpose of determining the volume of water obtained from these other sources.

(B) Devices for measuring the volume of waste discharged may be required by the village if these volumes cannot otherwise be determined from the metered water consumption records.

(C) Metering devised for determining the volume of waste shall be installed, owned and maintained by the person. Following approval and installation, such meters may not be removed, unless service is canceled, without the consent of the village.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

§ 52.032 RATES.

Commencing January 1, 2012, the flat rate per 100 cubic feet shall be increased by the amount of the increase imposed upon the village by the Village of Oak Lawn.

(Ord. 4107, passed 6-20-2011; Ord. 4131, passed 12-5-2011)

§ 52.033 FAULTY METERS.

Any person believing that the water meter on his or her premises is not accurate may, by depositing the sum equal to the expenses incurred for testing with the Municipal Clerk, have the same tested. If the meter is found to under-register, the sum of deposit shall be retained to cover the cost of the test. If the meter is found to over-register, a tested meter shall be installed and the deposit returned to the consumer advancing the same. All meters on premises shall be open to the Municipal Inspector at all reasonable hours, and shall be kept open and free from obstructions. Consumers shall be held responsible for all damages to meters not due to defects in the meter, and will be charged as a part of their monthly bill for any expenses incurred in repairing meters due to negligence of the consumers.

(Ord. 4107, passed 6-20-2011)

§ 52.034 UNLAWFUL TO TURN ON WATER WITHOUT PERMISSION.

It shall be unlawful for any person to turn on water leading to any premises without permission of the village where the same has been shut off by the village for nonpayment or delinquent water bills. No person shall tamper with any municipal meter.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

§ 52.035 CONNECTION MADE WITH SERVICE MAIN PROHIBITED.

No connection shall be made with any service pipe between the street and the meter, and no person shall use water from such connection.

(Ord. 4107, passed 6-20-2011) Penalty, see § 10.99

§ 52.036 FAILURE TO MAKE PAYMENT.

Any person failing to pay his or her water charges within the time period prescribed within this chapter shall be charged a late payment penalty equivalent to 10% of the bimonthly charge. The penalty shall be added to the whole amount charged. Failure to pay the water charge will result in disconnection as provided for in this chapter.

(Ord. 4107, passed 6-20-2011)

§ 52.037 BILLING PROCEDURES.

(A) Rates or charges for service shall be payable bi-monthly depending on the classification of service for which bills are rendered. The owner of the premises, the occupant thereof and the user of the service shall be jointly and severally liable to pay for the service to such premises. Service is furnished to the premises by the village only upon the condition that the owner of the premises, and the occupant and user of the services are jointly and severally liable therefore to the village. Bills for water service shall be sent out by the village as part of the water billing on a bi-monthly basis within 30 days succeeding the period for which the service is billed.

(B) All water bills are due and payable on or before 21 days after being sent out. A penalty of 10% shall be added to all bills not paid by the twenty-first day after they have been rendered.

(Ord. 4107, passed 6-20-2011)

§ 52.038 RESPONSIBILITY FOR PAYMENT.

(A) Water customers shall be billed bi-monthly for water consumed. The owner of the premises, the occupant thereof and the user of the service shall be jointly and severally liable to pay for the service on such premises, and the service is furnished to the premises by the village only upon condition that the owners of the premises, occupant and user of the service are jointly and severally liable therefore.

(B) If the applicant for water service is not the legal owner of the premises to which service is to be given, the applicant shall make as a condition precedent a cash deposit in advance to insure payment of final bills in an amount equal to the estimated maximum bimonthly bill of the applicant.

(Ord. 4107, passed 6-20-2011)

§ 52.039 DISCONNECTION FOR LATE PAYMENT.

(A) It is the policy of the village to discontinue water service to customers by reason of nonpayment of bills only after notice and a meaningful opportunity to be heard on disputed bills. The village's form for application for water service and all bills shall contain, in addition to the title, address, room number and telephone number of the official in charge of billing, clearly visible and easily readable provisions to the effect:

(1) All bills are due and payable on or before the date set forth on the bill; and

(2) If any bill is not paid by or before that date, a shut-off notice will be mailed stating that, if the bill is not paid within ten days of the mailing of the second bill, service will be discontinued for nonpayment.

(B) Requests for delays or waiver of payment will not be entertained for longer than 30 days.

(C) When it becomes necessary for the village to discontinue sewer service to a customer for nonpayment of bills, service will be reinstated only after all bills for service then due have been paid, along with a turn-on charge in the sum of \$75.

(Ord. 4107, passed 6-20-2011)

§ 52.040 LIEN-NOTICE OF DELINQUENCY.

(A) Whenever a bill for water service remains unpaid for 105 days for bi-monthly service after it has been rendered, the Village Clerk shall file with the County Recorder of Deeds a statement of lien claim. This statement shall contain the legal description of the premises served, the amount of the unpaid bill, and a notice that the village claims a lien for this amount as well as for all charges subsequent to the period covered by the bill.

(B) If the user whose bill is unpaid is not the owner of the premises and the Village Clerk has notice of this, notice shall be mailed to the owner of the premises if his or her address is known to the Treasurer, wherever such bill remains unpaid for the period of 44 days for a bi-monthly bill after it has been rendered.

(C) The failure of the Village Clerk to record such lien or to mail such notice or the failure of the owner to receive such notice shall not affect the right to foreclose the lien for unpaid bills as set forth in this chapter. All liens shall run with the land.

(Ord. 4107, passed 6-20-2011; Ord. 4202, passed 9-23-2013)

§ 52.041 SYSTEM OF ACCOUNTS; ANNUAL AUDIT.

(A) The Village Treasurer shall establish a proper system of accounts and shall keep proper books, records and accounts in which complete and correct entries shall be made of all transactions relative to the sewerage system. At regular annual

intervals, he or she shall cause to be made an audit by an independent auditing concern of the books to show the receipts and disbursements of the sewerage system.

(B) The IEPA or its authorized representative shall have access to any books, documents, papers and records of the village which are applicable to the village system of user charges for the purpose of making audits, examinations, excerpts and transcriptions thereof to ensure compliance with the terms of the special and general conditions to any state grant.

(Ord. 4107, passed 6-20-2011)

CROSS-CONNECTION CONTROL DEVICES AND TESTING

§ 52.055 PURPOSE.

The purpose of these rules and regulations is:

(A) To protect the village public water supply system from contamination or pollution by isolating within the customer's water system contaminants or pollutants which could backflow through the service connection into the village public water supply system;

(B) To promote the elimination or control of existing cross-connections, actual or potential, between the public or consumer's potable water system and nonpotable water systems, plumbing fixtures and sources or systems containing substances of unknown or questionable safety; and

(C) To provide for the maintenance of a continuing program of cross-connection control which will prevent the contamination or pollution of the public and consumer's potable water systems.

(Ord. 4169, passed 10-15-2012)

§ 52.056 APPLICATION.

These rules and regulations shall apply to all premises served by the public potable water supply system of the village.

(Ord. 4169, passed 10-15-2012)

§ 52.057 POLICY.

The owner or official custodian shall be responsible for protection of the public water supply system from contamination due to backflow or back siphonage of contaminants through the customer's water service connection. If, in the judgment of the Public Works Director, Village Engineer or Community Development Director of the village or their authorized representative, an approved backflow prevention device is necessary for the safety of the public water supply system, the Public Works Director, Village Engineer or Community Development Director of the village shall give notice to the consumer to install such approved backflow prevention device at each service connection to the premises. The consumer shall immediately install such approved device or devices at his or her own expense. Failure, refusal or inability on the part of the consumer to install such device or devices immediately shall constitute grounds for discontinuing water service to the premises until such device or devices have been installed. The consumer shall retain records of installation, maintenance, testing and repair as required in this section for a period of at least five years.

(Ord. 4169, passed 10-15-2012)

§ 52.058 DEFINITIONS.

For the purpose of this subchapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

AGENCY. Illinois Environmental Protection Agency.

APPROVED. Backflow prevention devices or methods approved by the Research Foundation for Cross-Connection Control of the University of Southern California, American Water Association, American National Standards Institute and certified by the National Sanitation Foundation.

AUXILIARY WATER SYSTEM. Any water source or system on or available to the premises other than the village public water supply system and includes the water supplied by the system. These auxiliary waters may include water from another purveyor's public water supply system; or water from a source such as wells, lakes or streams, or process fluids or used water. These waters may be polluted or contaminated or objectionable or constitute a water source or system over which the water purveyor does not have control.

BACKFLOW. The flow of water or other liquids, mixtures or substances into the distribution pipes of a potable water system from any source other than the intended source of the potable water supply.

BACKFLOW PREVENTION DEVICE. Any device, method or type of construction intended to prevent backflow into a potable water system. All devices used for backflow prevention in the state must meet the standards of the State Plumbing Code, the Illinois Environmental Protection Agency and the village.

CONSUMER or CUSTOMER. The owner, official custodian or person in control of any premises supplied by or in any manner connected to the village public water system.

CONSUMER'S WATER SYSTEM. Any water system located on the customer's premises. A building plumbing system is considered to be a customer's water system.

CONTAMINATION. An impairment of the quality of the water by entrance of any substance to a degree which could create a health hazard.

CROSS-CONNECTION. Any physical connection or arrangement between two otherwise separate piping systems, one of which contains potable water and the other a substance of unknown or questionable safety or quality whereby there may be a flow from one system into the other.

(1) **DIRECT CROSS-CONNECTION.** A cross-connection formed when a potable water system is physically joined to a source of unknown or unsafe substance.

(2) **INDIRECT CROSS-CONNECTION.** A cross-connection through which an unknown substance can be forced, drawn by vacuum or otherwise introduced into a safe potable water system.

DOUBLE CHECK VALVE ASSEMBLY. An assembly composed of single, independently acting check valves approved under ASSE standard 1015. A **DOUBLE CHECK VALVE ASSEMBLY** must include tight shutoff valves located at each end of the assembly and suitable connections for testing the water-tightness of each check valve.

FIXED PROPER AIR GAP. The unobstructed vertical distance through the free atmosphere between the water discharge point and the flood level rim of the receptacle.

HEALTH HAZARD. Any condition, device or practice in a water system or its operation resulting from a real or potential danger to the health and well being of consumers. The word **SEVERE** as used to qualify **HEALTH HAZARD** means a hazard to the health of the user that could be expected to result in death or significant reduction in the quality of life.

INSPECTION. A plumbing inspection to examine carefully and critically all materials, fixtures, piping and appurtenances, appliances and installations of a plumbing system for compliance with requirements of the State Plumbing Code, 77 Ill. Adm. Code Part 900.

NONPOTABLE WATER. Water not safe for drinking, personal or culinary use as determined by the requirements of 85 Ill. Adm. Code Part 604.

PLUMBING. The actual installation, repair, maintenance, alteration or extension of a plumbing system by any person. **PLUMBING** includes all piping, fixtures, appurtenances and appliances for a supply of water for all purposes, including, without limitation, lawn sprinkler systems, from the source of a private water supply on the premises or from the main in the street, alley or at the curb to, within and about any building or buildings where a person or persons live, work or assemble. **PLUMBING** includes all piping, from discharge of pumping units to and including pressure tanks in water supply systems. **PLUMBING** includes all piping fixtures, appurtenances and appliances for a building drain and a sanitary drainage and related ventilation system of any building or buildings where a person or persons live, work or assemble from the point of connection of such building drain to the building sewer or private sewage disposal system five feet beyond the foundation walls.

POLLUTION. The presence of any foreign substance (organic, inorganic, radiological or biological) in water that tends to degrade its quality so as to constitute a hazard or impair the usefulness of the water.

POTABLE WATER. Water which meets the requirements of 77 Ill. Adm. Code Part 900 for drinking, culinary and domestic purposes.

POTENTIAL CROSS-CONNECTION. A fixture or appurtenance with threaded hose connection, tapered spout or other connection which would facilitate extension of the water supply line beyond its legal termination point.

PROCESS FLUIDS. Any fluid or solution which may be chemically, biologically or otherwise contaminated or polluted in a form or concentration such as would constitute a health, pollutional or system hazard if introduced into the public or a consumer's potable water system. This includes, but is not limited to:

- (1) Polluted or contaminated waters;
- (2) Process waters;
- (3) Used waters originating from the public water support system which may have deteriorated in sanitary quality;
- (4) Cooling water;
- (5) Questionable or contaminated natural waters taken from wells, lakes, streams or irrigation systems;
- (6) Chemicals in solution or suspension; and
- (7) Oils, gases, acids, alkalis and other liquid and gaseous fluids used in industrial, or other processes, or for firefighting purposes.

PUBLIC WATER SUPPLY. All mains, pipes and structures through which water is obtained and distributed to the public, including wells and well structures, intakes and cribs, pumping stations, treatment plants, reservoirs, storage tanks and appurtenances, collectively or severally, actually used or intended for use for the purpose of furnishing water for drinking or general domestic use and which serve at least 15 service connections or which regularly serve at least 25 persons at least

50 days per year. A **PUBLIC WATER SUPPLY** is either a community water supply or a noncommunity water supply.

REDUCED PRESSURE PRINCIPLE BACKFLOW PREVENTION DEVICE. A device containing a minimum of two independently acting check valves together with an automatically operated pressure differential relief valve located between the two check valves and approved under ASSE standard 1013. During normal flow and at the cessation of normal flow, the pressure between these two checks shall be less than the supply pressure. In case of leakage of either check valve, the differential relief valve, by discharging to the atmosphere, shall operate to maintain the pressure between the check valves at less than the supply pressure. The unit must include tightly closing shutoff valves located at each end of the device, and each device shall be fitted with properly located test cocks.

SERVICE CONNECTION. The opening, including all fittings and appurtenances, at the water main through which water is supplied to the user.

SURVEY. The collection of information pertaining to a customer's piping system regarding the location of all connections to the public water supply system and must include the locations, type and most recent inspections and testing date of all cross-connection control devices and methods located within that customer's piping system. The **SURVEY** must be in written form, and should not be an actual plumbing inspection.

SYSTEM HAZARD. A condition through which an aesthetically objectionable or degrading material not dangerous to health may enter the public water supply system or a consumer's potable water system.

USED WATER. Any water supplied by a public water supply system to a consumer's water system after it has passed through the service connection and is no longer under the control of the water supply official custodian.

WATER PURVEYOR. The owner or official custodian of a public water system.

(Ord. 4169, passed 10-15-2012)

§ 52.059 WATER SYSTEM.

(A) The water system shall be considered as made up of two parts: the public water supply system; and the consumer's water system.

(B) The public water supply system shall consist of the source facilities and the distribution system, and shall include all those facilities of the potable water system under the control of the Public Works Director up to the point where the consumer's water system begins.

(C) The source shall include all components of the facilities utilized in the production, treatment, storage and delivery of water to the public water supply distribution system.

(D) The public water supply distribution system shall include the network of conduits used to deliver water from the source to the consumer's water system.

(E) The consumer's water system shall include all parts of the facilities beyond the service connection used to convey water from the public water supply distribution system to points of use.

(Ord. 4169, passed 10-15-2012)

§ 52.060 CROSS-CONNECTION PROHIBITED.

(A) Connections between potable water systems and other systems or equipment containing water or other substances of unknown or questionable quality are prohibited except when and where approved cross-connection control devices or methods are installed, tested and maintained to ensure proper operation on a continuing basis.

(B) No physical connection shall be permitted between the potable portion of a supply and any other water supply not of equal or better bacteriological and chemical quality as determined by inspection and analysis by the agency. There shall be no arrangement or connection by which an unsafe substance may enter a supply.

(Ord. 4169, passed 10-15-2012) Penalty, see § 10.99

§ 52.061 SURVEY AND INVESTIGATIONS.

(A) The consumer's premises shall be open at all reasonable times to the village's approved cross-connection control device inspector for the inspection of the presence or absence of cross-connections within the consumer's premises, and testing, repair and maintenance of cross-connection control devices within the consumer's premises.

(B) On request by the Public Works Director, Village Engineer or Community Development Director of the village or their authorized representative, the consumer shall furnish information regarding the piping system or systems or water use within the consumer's premises. The consumer's premises shall be open at all reasonable times to the Public Works Director, Village Engineer or Community Development Director of the village for the verification of information submitted by the consumer to the public water supply custodian regarding cross-connection inspection results.

(C) It shall be the responsibility of the water consumer to arrange periodic surveys of water use practices on his or her premises to determine whether there are actual or potential cross-connections to his or her water system through which contaminants or pollutants could backflow into his or her or the public potable water system. All cross-connection control or other plumbing inspections must be conducted in accordance with § 3(1) of the Illinois Plumbing License Law (225 ILCS

320/3(1)).

(D) It is the responsibility of the water consumer to prevent backflow into the public water system by ensuring that:

(1) *Prevention.* All cross-connections are removed, or approved cross-connection control devices are installed for control of backflow and back siphonage;

(2) *Installation.* Cross-connection control devices shall be installed in accordance with the manufacturer's instructions; and

(3) *Inspection.* Cross-connection control devices shall be inspected at least annually or more often as required by a person approved by the village and Agency as a cross-connection control device inspector (CCCDI) pursuant to the requirements of this chapter. The inspection of mechanical devices shall include physical testing in accordance with the manufacturer's instructions.

(Ord. 4169, passed 10-15-2012) Penalty, see § 10.99

§ 52.062 WHERE PROTECTION IS REQUIRED.

(A) An approved backflow prevention device shall be installed on each service line to a consumer's water system serving premises, where in the judgment of the Public Works Director, Village Engineer or Community Development Director of the village, actual or potential hazards to the public water supply system exist.

(B) An approved backflow prevention device shall be installed on each service line to a consumer's water system serving premises where any of the following conditions exist:

(1) Premises having an auxiliary water supply, unless such auxiliary supply is accepted as an additional source by the Public Works Director of the village and the source is approved by the State Environmental Protection Agency;

(2) Premises on which any substance is handled which can create an actual or potential hazard to the public water supply system. This shall include premises having sources or systems containing process fluids or waters originating from the public water supply system which are no longer under the sanitary control of the Public Works Director of the village;

(3) Premises having internal cross-connections that, in the judgment of the Public Works Director, Village Engineer or Community Development Director of the village are not correctable or intricate plumbing arrangements which make it impracticable to determine whether or not cross-connections exist;

(4) Premises where, because of security requirements or other prohibitions or restrictions it is impossible or impractical to make a complete cross-connection survey; or

(5) Premises having a repeated history of cross-connections being established or reestablished.

(C) An approved backflow prevention device shall be installed on each service line to a consumer's water system serving, but not necessarily limited to, the following types of facilities unless the Public Works Director of the village determines that no actual or potential hazard to the public water supply system exists:

(1) Hospitals, mortuaries, clinics, nursing homes;

(2) Laboratories;

(3) Piers, docks, waterfront facilities;

(4) Sewage treatment plants, sewage pumping stations or stormwater pumping stations;

(5) Food or beverage processing plants;

(6) Chemical plants;

(7) Metal plating industries;

(8) Petroleum processing or storage plants;

(9) Radioactive material processing plants or nuclear reactors; and

(10) Car washes.

(Ord. 4169, passed 10-15-2012)

§ 52.063 TYPE OF PROTECTION REQUIRED.

(A) The type of protection required under § 52.062(B)(1), (B)(2) and (B)(3) shall depend on the degree of hazard which exists as follows.

(1) An approved fixed proper air gap separation shall be installed, where the public water supply system may be contaminated with the substances that could cause a severe health hazard.

(2) An approved fixed proper air gap separation or an approved reduced pressure principle backflow prevention device shall be installed where the public water supply system may be contaminated with a substance that could cause a system or

health hazard.

(3) An approved fixed proper air gap separation or an approved reduced pressure principle backflow prevention device shall be installed where the public water supply system may be polluted with substances that could cause a pollution hazard not dangerous to health.

(B) The type of protection required under §52.062(B)(4) shall be an approved fixed proper air gap separation or an approved reduced pressure principle backflow prevention device.

(C) Where a public water supply or an auxiliary water supply is used for a fire protection system, reduced pressure principle backflow preventors shall be installed on fire sprinkler systems connected to the public water supply when:

- (1) The sprinkler system contains any substance other than potable water;
- (2) Water is pumped into the system from another source; or
- (3) There is a connection whereby another source can be connected to the sprinkler system.

(Ord. 4169, passed 10-15-2012)

§ 52.064 BACKFLOW PREVENTION DEVICES.

(A) All backflow prevention devices or methods required by these rules and regulations shall be approved by the Research Foundation for Cross-Connection Control of the University of Southern California, American Water Works Association, American Society of Sanitary Engineering or American National Standards Institute or certified by the National Sanitation Foundation to be in compliance with applicable industry specifications.

(B) Installation of approved devices shall be made in accordance with 35 Ill. Adm. Code Part 653.802, and only as specified by the Research Foundation for Cross-Connection Control of the University of Southern California or applicable industry specifications. Maintenance as recommended by the manufacturer of the device shall be performed. Manufacturer's maintenance manual shall be available on site.

(Ord. 4169, passed 10-15-2012)

§ 52.065 INSPECTION AND MAINTENANCE.

(A) It shall be the duty of the consumer at any premises on which backflow prevention devices required by these regulations are installed to have inspection, tests, maintenance and repair made in accordance with the following schedule or more often where inspections indicate a need or are specified in manufacturer's instructions.

- (1) Fixed proper air gap separations shall be inspected at the time of installation and at least annually thereafter.
- (2) Double check valve assemblies shall be inspected and tested for tightness at time of installation and at least annually thereafter, and required service performed within 15 days.
- (3) Reduced pressure principle backflow prevention devices shall be tested at least annually or more frequently if recommended by the manufacturer, and required service performed within five days.

(B) Testing shall be performed by a person who has been approved by the village as competent to service the device. Proof of approval shall be in writing.

(C) Each device shall have a tag attached listing the date of most recent test or visual inspection, name of tester, and type and date of repairs.

(D) A maintenance log shall be maintained and include:

- (1) Date of each test or visual inspection;
- (2) Name and approval number of person performing the test or visual inspection;
- (3) Test results;
- (4) Repairs or servicing required;
- (5) Repairs and date completed; and
- (6) Servicing performed and date completed.

(E) Whenever backflow prevention devices required by these regulations are found to be defective, they shall be repaired or replaced at the expense of the consumer without delay. A follow up inspection and a certification of the proper functioning of the device is required.

(F) Backflow prevention devices shall not be bypassed, made inoperative, removed or otherwise made ineffective without specific written authorization by the Public Works Director and Village Engineer.

(G) Inspection test results: copies of all inspection test results shall be forwarded to the Public Works Department's authorized representative within ten working days of the test.

(H) All test/maintenance reports must include the following information:

(1) *Administrative information.*

- (a) Water customer or facility name;
- (b) Contact name and telephone number;
- (c) Complete service address (physical address);
- (d) Complete mailing address;
- (e) Physical location of backflow prevention assembly/device within facility or on the property (room number, room name, landmarks);
- (f) Type of assembly/device (RP, RPDA, DCVA, DCDA and the like);
- (g) Assembly make, model, size and serial number;
- (h) Test gauge make, model and serial number;
- (i) CCCDI printed name, signature and CCCDI license number; and
- (j) Date and time of test.

(2) *Test information.*

- (a) Whether the valve passed or failed the test;
- (b) Gauge readings of each component tested (check valves, relief valve opening point, air inlet opening point and the like); and
- (c) Repair information (any new or used parts, components cleaned and replaced and the like).

(3) *Other information.*

- (a) Notations of any unsafe conditions or safety issues; and
- (b) Notations of any installation abnormalities or deficiencies.

(I) Fraudulent information: if it is determined that a CCCDI has misrepresented the test results of any backflow prevention assembly, has purposefully submitted fraudulent information, is not testing backflow prevention assemblies in accordance with established methods approved by the State EPA, or in any other way misrepresents or fraudulently submits information to the village, that CCCDI will be removed from the list of acceptable certified testers and all test reports submitted to the village will be considered invalid. Additionally, the village will submit any and all information regarding that tester to the State EPA for appropriate enforcement action.

(J) Any backflow prevention assembly test report that is not properly completed or is not submitted and fees paid in accordance with this chapter will be considered invalid. Should a certified CCCDI continue to violate this subchapter, that tester will be removed from the approved CCCDIs maintained by the village.

(Ord. 4169, passed 10-15-2012) Penalty, see § 10.99

§ 52.066 BOOSTER PUMPS.

(A) Where a booster pump has been installed on the service line to or within any premises, such pump shall be equipped with a low pressure cutoff device designed to shut off the booster pump when the pressure in the service line on the suction side of the pump drops to 20 psi or less.

(B) It shall be the duty of the water consumer to maintain the low pressure cutoff device in proper working order and to certify to the Public Works Director of the village at least once a year that the device is operable.

(Ord. 4169, passed 10-15-2012) Penalty, see § 10.99

§ 52.067 NOTICE TO INSTALL DEVICE.

If in accordance with the State Plumbing Code, the Illinois Environmental Protection Act, or in the judgment of the Public Works Director, Village Engineer or Community Development Director of the village an approved backflow prevention device is necessary for the safety of the public water supply system, the Public Works Director, Village Engineer or Community Development Director of the village will give written notice to the water customer to install such an approved device within 15 days after receipt of notice. The water customer shall, at his or her own expense, install such an approved device at a location and in a manner in accordance with the State Plumbing Code (77 Ill. Adm. Code Part 900) and all applicable village regulations, and shall have inspections and tests made of such approved devices as required by the State Plumbing Code and the village regulations.

(Ord. 4169, passed 10-15-2012) Penalty, see § 10.99

§ 52.068 PROHIBITED CONNECTIONS.

No person, firm or corporation shall establish or permit to be established or maintain or permit to be maintained any connection whereby a private, auxiliary or emergency water supply other than the regular public water supply of the village may enter the supply or distribution system of said municipality, unless such private, auxiliary or emergency water supply and the method of connection and use of such supply shall have been approved by the Public Works Director and the State Environmental Protection Agency.

(Ord. 4169, passed 10-15-2012) Penalty, see § 10.99

§ 52.069 SURVEYS AND INVESTIGATIONS.

It shall be the duty of the Public Works Director, Village Engineer or Community Development Director of the village to cause surveys and investigations to be made of industrial and other properties served by the public water supply to determine whether actual or potential hazards to the public water supply may exist. Such surveys and investigations shall be made a matter of public record and shall be repeated at least every two years, or as often as the Public Works Director, Village Engineer or Community Development Director of the village shall deem necessary. Records of such surveys shall be maintained and available for review for a period of at least five years.

(Ord. 4169, passed 10-15-2012)

§ 52.070 RIGHT OF ENTRY OF INSPECTOR.

The approved cross-connection control device inspector of the village shall have the right to enter at any reasonable time any property served by a connection to the public water supply or distribution system of the village for the purpose of verifying the presence or absence of cross-connections and the Public Works Director, Village Engineer or Community Development Director of the village or his or her authorized agent shall have the right to enter at any reasonable time any property served by a connection to the public water supply or distribution system of the village for the purpose of verifying information submitted by the customer regarding the required cross-connection control inspection. On demand, the owner, lessees or occupants of any property so served shall furnish to the Public Works Director, Village Engineer or Community Development Director of the village any information which he or she may request regarding the piping system or systems or water use on such property. The refusal of such information, when demanded, shall, within the discretion of the Public Works Director, Village Engineer or Community Development Director of the village, be deemed evidence of the presence of improper connections as provided in this chapter.

(Ord. 4169, passed 10-15-2012)

§ 52.071 DISCONNECTION OF WATER SERVICE FOR VIOLATIONS.

The Public Works Director, Village Engineer or Community Development Director of the village is hereby authorized and directed to discontinue, after reasonable notice to the occupant thereof, the water service to any property wherein any connection in violation of the provisions of this chapter is known to exist, and to take such other precautionary measures as he or she may deem necessary to eliminate any danger of contamination of the public water supply distribution mains. Water service to such property shall not be restored until such conditions have been eliminated or corrected in compliance with the provisions of this chapter, and until a reconnection fee of \$100 is paid to the village. Immediate disconnection with verbal notice can be effected when the Public Works Director, Village Engineer or Community Development Director of the village is assured that imminent danger of harmful contamination of the public water supply system exists. Such action shall be followed by written notification of the cause of disconnection.

(Ord. 4169, passed 10-15-2012)

§ 52.072 COST OF CLEANUP.

The owner or consumer responsible for back siphoned material or contamination through backflow, if contamination of the potable water supply system occurs through an illegal cross-connection or an improperly installed, maintained or repaired device, or a device which has been bypassed, must bear the cost of cleanup of the potable water supply system.

(Ord. 4169, passed 10-15-2012)

§ 52.073 PERMIT REQUIRED.

A permit is required for the installation of the approved cross-connection control device. This permit shall be issued by the Department of Community Development. From time to time, the President and Board of Trustees shall establish a fee for said permit as they deem appropriate.

(Ord. 4169, passed 10-15-2012)

§ 52.074 VIOLATIONS.

(A) The Public Works Director, Village Engineer or Community Development Director of the village shall deny or discontinue, after reasonable notice to the occupants thereof, the water service to any premises wherein any backflow prevention device required by these regulations is not installed, tested, maintained and repaired in a manner acceptable to the Public Works Director, Village Engineer or Community Development Director of the village, or if it is found that the backflow prevention device has been removed or bypassed, or if an unprotected cross-connection exists on the premises, or if a low pressure cutoff required by these regulations is not installed and maintained in working order.

(B) Water service to such premises shall not be restored until the consumer has corrected or eliminated such conditions or defects in conformance with these regulations and to the satisfaction of the Public Works Director, Village Engineer or Community Development Director of the village, and the required reconnection fee is paid.

(Ord. 4169, passed 10-15-2012)

POWERS AND AUTHORITY OF INSPECTORS

§ 52.085 RIGHT OF ENTRY.

The Community Development Director or his or her designee and other duly authorized employees of the village, the State Environmental Protection Agency and MWRD, bearing proper credentials and identification, shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing in accordance with the provisions of this chapter. The Community Development Director or his or her representative shall have no authority to inquire into any processes, including metallurgical, chemical, oil refining, ceramic, paper or other industries, beyond that point having a direct bearing on the kind and source of discharge to the sewers, waterways or facilities for waste treatment.

(Ord. 4107, passed 6-20-2011)

§ 52.086 LIABILITY.

While performing the necessary work on private properties referred to in this chapter, the Director of Community Development or other duly authorized employees of the village, the State Environmental Protection Agency, the United States Environmental Protection Agency and MWRD shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the village employees. The village shall indemnify the company against liability claims and demands for personal injury or property damage asserted against the company and growing out of gauging and sampling operations by village employees, except as such may be caused by negligence or failure of the company to maintain conditions as required in this chapter.

(Ord. 4107, passed 6-20-2011)

§ 52.087 ENTRY ONTO PRIVATE PROPERTY.

The Director of Community Development and other duly authorized employees of the village bearing proper credentials and identification shall be permitted to enter all private properties through which the village holds a duly negotiated easement for the purposes of, but not limited to inspection, observation, measurement, employing, repair and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

(Ord. 4107, passed 6-20-2011)

Complete Lead Service Line Inventory

Lead Service Line Inventory Template

*Please enter information in the empty box next to each section		Water System Name		Matteson			System ID Number:		IL0311800		Current Inventory Date:		4/15/2025									
*Please enter totals in the empty box next to each category		Total Service lines:		7010		Total Lead:	576		Total Non-Lead		6430		Total Galvanized Requiring replacement:	4		Total Unknown:	0		Website link to Material Inventory:		www.villageofmatteson.org/departments/public_works/general_services/inventory	
Service Address	Lead and Copper Sample site number.	Is this a high-risk Facility or Area?	Service Line Newly Identified Since Last Submitted Inventory	Year PWS-Owned Service Line was Installed	Year Customer Side Service Line was Installed	Source of Information Used for Service Line Identification	Gooseneck/ Pigtail	PWS-Owned Service Line Material	Customer Side Service Line Material	Classification for Entire Service Line	Was Galvanized Service Line Material ever downstream of Lead?	Date Customer Notified of Lead Service Line	Was a Lead Service Line Previously Replaced at this Location?	Date Lead Service Line Replaced	Material of Service Line Replacement	Has the customer refused access to the property?	Date of customer waiver or IDPH notification, if customer refused access to property					
		EXAMPLES: Group Homes, Parks, Playgrounds, Special Care Facilities, Hospitals, Clinics, Child Care Facilities	Yes (Y) or No (N)	What year was the PWS-Owned service line installed, if known?	What year was the customer side service line installed, if known?	How was the Material of this Service Line Identified? EXAMPLES: Construction Records, Visual Inspections, Survey Response, Maintenance Records, etc...	EXAMPLES: Copper - No Lead Solder (C) Copper - Lead Solder (CLS) Galvanized (G) Lead (L) Cast/Ductile Iron or Transite (O) Plastic - PVC, HDPE, PEX (P) Unknown (U) Unknown Not Lead (UNL)	EXAMPLES: Copper - No Lead Solder (C) Copper - Lead Solder (CLS) Galvanized (G) Galvanized Requiring Replacemnt (GRR) Lead (L) Cast/Ductile Iron or Transite (O) Plastic - PVC, HDPE, PEX (P) Unknown (U) Unknown Not Lead (UNL)	EXAMPLES: Copper - No Lead Solder (C) Copper - Lead Solder (CLS) Galvanized (G) Galvanized Requiring Replacemnt (GRR) Lead (L) Cast/Ductile Iron or Transite (O) Plastic - PVC, HDPE, PEX (P) Unknown (U) Unknown Not Lead (UNL)	EXAMPLES: Lead (L) Galvanized Requiring Replacemnt (GRR) Non-Lead (NL)	If any galvanized service line material was ever downstream of a Lead section, mark Yes (Y). If the galvanized service line material was never downstream of any Lead section, mark No (N). If Yes, that section of service line should be marked as Galvanized Requiring Replacement in the appropriate immediately preceding column(s).	Enter date customer was notified of Lead Service Line. If Service Line is not Lead put N/R	Yes (Y) or No (N)	If previous column was marked (Y), provide date the Lead Service Line was replaced. Leave blank if previous column was (N).	EXAMPLES: Copper - No Lead Solder (C) Galvanized (G) Plastic - PVC, HDPE, PEX (P) Cast/Ductile Iron or Transite (O) Leave blank if no Lead Service Line was replaced.	Yes (Y) or No (N)	If customer refused access to property, date waiver obtained by PWS or date PWS notified IDPH of refusal to sign waiver. Leave blank if customer has not refused access.

TITLE 35: ENVIRONMENTAL PROTECTION
SUBTITLE F: PUBLIC WATER SUPPLIES
CHAPTER II: ENVIRONMENTAL PROTECTION AGENCY
PART 663 PROCEDURES FOR ISSUING LOANS FROM THE PUBLIC WATER SUPPLY
LOAN PROGRAM TO PROVIDE FUNDING FOR LEAD SERVICE LINE
REPLACEMENT
SECTION 663.345 LOAN PRIORITY SCORE

Section 663.345 Loan Priority Score

- a) Projects will be scored and ranked for inclusion on the Project Priority List using the loan priority score methodology set forth in this Section.
- b) The Agency will calculate the loan priority score by totaling the points awarded in subsections (g) through (n).
- c) The scoring will be based on the information from the most recent American Community Survey 5-year estimate from the US Department of Commerce, Bureau of the Census.
- d) Applicants with a higher loan priority score will be ranked above applicants with a lower loan priority score on the Project Priority List.
- e) Only projects that have a submitted a Funding Nomination Form and have a Project Plan approved by the Agency will be scored pursuant to this Section.
- f) The applicant will identify the census tract or tracts of the project area from the U.S. Department of Commerce, Bureau of Census. If more than one census tract is identified for the project area, the percentile rank of each scoring metric identified in subsections (g) through (m) below will be determined for each census tract within the project area. The average of the percentile ranks for the identified census tracts will be calculated and used as the percentile rank for the project area to determine the appropriate points awarded in subsections (g) through (m) below.

g) Median Household Income (MHI):

- 1) A maximum of 100 points may be awarded under this subsection (g).
- 2) The following points will be awarded based on the percentile rank of the MHI of the applicant's project area among all census tracts within the State:

Points	MHI Percentile Rank
100	Project Area Ranks at or below the 5 th Percentile of State MHI
90	Project Area Ranks above the 5 th Percentile and at or below the 10 th Percentile
80	Project Area Ranks above the 10 th Percentile and at or below the 20 th Percentile
70	Project Area Ranks above the 20 th Percentile and at or below the 30 th Percentile
60	Project Area Ranks above the 30 th Percentile and at or below the 40 th Percentile
40	Project Area Ranks above the 40 th Percentile and at or below the 50 th Percentile
20	Project Area Ranks above the 50 th Percentile and at or below the 60 th Percentile
10	Project Area Ranks above the 60 th Percentile and at or below the 70 th Percentile
5	Project Area Ranks above the 70 th Percentile and at or below the 80 th Percentile
0	Project Area Ranks Above the 80 th Percentile of State MHI

h) Children Under the Age of 6

- 1) A maximum of 80 points may be awarded under this subsection (h).
- 2) The following points will be awarded based on the percentile rank of the number of children under the age of 6 within the applicant's project area among all census tracts within the State:

Points	Children Under the Age of 6 Percentile Rank
80	Project Area Ranks Above the 90 th Percentile
70	Project Area Ranks above the 80 th Percentile but at or below the 90 th Percentile
60	Project Area Ranks above the 70 th Percentile but at or below the 80 th Percentile
50	Project Area Ranks above the 60 th Percentile but at or below the 70 th Percentile
40	Project Area Ranks above the 50 th Percentile but at or below the 60 th Percentile
30	Project Area Ranks above the 40 th Percentile but at or below the 50 th Percentile
20	Project Area Ranks above the 30 th Percentile but at or below the 40 th Percentile
10	Project Area Ranks above the 20 th Percentile but at or below the 30 th Percentile
5	Project Area Ranks above the 10 th Percentile but at or below the 20 th Percentile
0	Project Area Ranks at or below the 10 th Percentile

i) Unemployment Rate

- 1) A maximum of 45 points may be awarded under this subsection (i).
- 2) The following points will be awarded based on the percentile rank of the unemployment rate of the applicant's project area among all census tracts within the State:

Points	Unemployment Percentile Rank
45	Project Area Ranks Above the 90 th Percentile
40	Project Area Ranks above the 80 th Percentile but at or below the 90 th Percentile
35	Project Area Ranks above the 70 th Percentile but at or below the 80 th Percentile
30	Project Area Ranks above the 60 th Percentile but at or below the 70 th Percentile
25	Project Area Ranks above the 50 th Percentile but at or below the 60 th Percentile
20	Project Area Ranks above the 40 th Percentile but at or below the 50 th Percentile
15	Project Area Ranks above the 30 th Percentile but at or below the 40 th Percentile
10	Project Area Ranks above the 20 th Percentile but at or below the 30 th Percentile
5	Project Area Ranks above the 10 th Percentile but at or below the 20 th Percentile
0	Project Area Ranks at or below the 10 th Percentile

j) Poverty Rate

- 1) A maximum of 45 points may be awarded under this subsection (j).
- 2) The following points will be awarded based on the percentile rank of the poverty rate of the applicant's project area among all census tracts within the State:

Points	Poverty Rate Percentile Rank
45	Project Area Ranks Above the 90 th Percentile
40	Project Area Ranks above the 80 th Percentile but at or below the 90 th Percentile
35	Project Area Ranks above the 70 th Percentile but at or below the 80 th Percentile
30	Project Area Ranks above the 60 th Percentile but at or below the 70 th Percentile
25	Project Area Ranks above the 50 th Percentile but at or below the 60 th Percentile
20	Project Area Ranks above the 40 th Percentile but at or below the 50 th Percentile
15	Project Area Ranks above the 30 th Percentile but at or below the 40 th Percentile
10	Project Area Ranks above the 20 th Percentile but at or below the 30 th Percentile
5	Project Area Ranks above the 10 th Percentile but at or below the 20 th Percentile
0	Project Area Ranks at or below the 10 th Percentile

k) Social Security Rate

- 1) A maximum of 45 points may be awarded under this subsection (k).
- 2) The following points will be awarded based on the percentile rank of the social security rate of the applicant's project area among all census tracts within the State:

Points	Social Security Rate Percentile Rank
45	Project Area Ranks Above the 90 th Percentile
40	Project Area Ranks above the 80 th Percentile but at or below the 90 th Percentile
35	Project Area Ranks above the 70 th Percentile but at or below the 80 th Percentile
30	Project Area Ranks above the 60 th Percentile but at or below the 70 th Percentile
25	Project Area Ranks above the 50 th Percentile but at or below the 60 th Percentile
20	Project Area Ranks above the 40 th Percentile but at or below the 50 th Percentile
15	Project Area Ranks above the 30 th Percentile but at or below the 40 th Percentile
10	Project Area Ranks above the 20 th Percentile but at or below the 30 th Percentile
5	Project Area Ranks above the 10 th Percentile but at or below the 20 th Percentile
0	Project Area Ranks at or below the 10 th Percentile

l) Supplemental Security Income

- 1) A maximum of 45 points may be awarded under this subsection (l).
- 2) The following points will be awarded based on the percentile rank of the supplemental security income rate of the applicant's project area among all census tracts within the State:

Points	Supplemental Security Income Rate Percentile Rank
45	Project Area Ranks Above the 90 th Percentile
40	Project Area Ranks above the 80 th Percentile but at or below the 90 th Percentile
35	Project Area Ranks above the 70 th Percentile but at or below the 80 th Percentile
30	Project Area Ranks above the 60 th Percentile but at or below the 70 th Percentile
25	Project Area Ranks above the 50 th Percentile but at or below the 60 th Percentile
20	Project Area Ranks above the 40 th Percentile but at or below the 50 th Percentile
15	Project Area Ranks above the 30 th Percentile but at or below the 40 th Percentile
10	Project Area Ranks above the 20 th Percentile but at or below the 30 th Percentile
5	Project Area Ranks above the 10 th Percentile but at or below the 20 th Percentile
0	Project Area Ranks at or below the 10 th Percentile

m) Houses Built Pre-1990

- 1) A maximum of 45 points may be awarded under this subsection (m).
- 2) The following points will be awarded based on the percentile rank of the number of housing units built before 1990 within the applicant's project area among all census tracts within the State:

Points	Housing Units Built Pre-1990 Percentile Rank
45	Project Area Ranks Above the 90 th Percentile
40	Project Area Ranks above the 80 th percentile but at or below the 90 th Percentile
35	Project Area Ranks above the 70 th percentile but at or below the 80 th Percentile
30	Project Area Ranks above the 60 th percentile but at or below the 70 th Percentile
25	Project Area Ranks above the 50 th percentile but at or below the 60 th Percentile
20	Project Area Ranks above the 40 th percentile but at or below the 50 th Percentile
15	Project Area Ranks above the 30 th percentile but at or below the 40 th Percentile
10	Project Area Ranks above the 20 th percentile but at or below the 30 th Percentile
5	Project Area Ranks above the 10 th percentile but at or below the 20 th Percentile
0	Project Area Ranks at or below the 10 th Percentile

n) Lead Service Line Burden

- 1) A maximum of 45 points may be awarded under this subsection (n).
- 2) The following points will be awarded based on the total number of lead service lines as a percentage of all water service lines reported in the Material Inventory.

Points	Lead Service Line Percentage
45	Lead Service Lines are 75%- 100% of the Material Inventory
30	Lead Service Lines are 50%-74.99% of the Material Inventory
15	Lead Service Lines are 25%-49.99% of the Material Inventory
0	Lead Service Lines are 0%-24.99% of the Material Inventory

Dear Matteson Resident,

The Village of Matteson is developing an inventory of water service pipe materials. We have developed a survey for you to take that will help the Village determine the material of the service pipe that brings water to your home.

We urge you to submit photos of your pipe through the survey to help develop this inventory. More survey responses will save the Village money.

Completing the survey within two weeks will help the Village and the community. Please contact Claudia at 708-210-5544 with any questions or requests for assistance.

Sincerely,

Sheila Y. Chalmers-Currin

MATTESON

**Water Pipe
Inventory
Initiative**

Estimado residente de Matteson,

La aldea de Matteson está desarrollando un inventario de materiales de tuberías de servicio de agua. Hemos desarrollado una encuesta que ayudará a la aldea a determinar el material de la tubería de servicio que lleva agua a su hogar.

Le solicitamos a que envíe fotos de su tubería a través de la encuesta para ayudar a desarrollar este inventario. Su respuesta a esta encuesta le ahorrará dinero a la aldea.

Completar la encuesta dentro de dos semanas ayudará a la aldea y a la comunidad. Comuníquese con Claudia al 708-210-5544 si tiene alguna pregunta o solicitud de asistencia.

Sinceramente,

Sheila Y. Chalmers-Currin

What are the Risks of Lead?

Exposure to lead in drinking water can cause serious health effects in all age groups. The most common exposure to lead is swallowing or breathing in lead paint chips and dust. However, lead in drinking water can also be a source of lead exposure.

How does lead end up in drinking water?

What can you do to reduce lead exposure in drinking water?

There is no "safe" level of lead exposure

Questions? Contact us at
708-505-5287

This notice contains important information about your water service and may affect your rights. The water system has identified that your service line is galvanized requiring replacement. A galvanized service line requiring replacement is one that that is or ever was downstream of a lead service line. We encourage you to have this notice translated in full into a language you understand and before you make any decisions that may be required under this notice.

Diese Mitteilung beinhaltet wichtige Informationen über Ihre Wasserversorgung und könnte Ihre Rechte beeinflussen. Wir bitten Sie, dass Sie diese Mitteilung vollständig in eine Sprache übersetzen lassen, die Sie verstehen, bevor Sie eventuelle Entscheidungen treffen, welche im Zusammenhang mit dieser Benachrichtigung erforderlich sind.

Ang abisong ito ay naglalaman ng mahalagang impormasyon tungkol sa iyong serbisyo sa tubig at maaaring makaapekto sa iyong mga karapatan. Hinihikayat namin kayo na isalin nang buo ang abisong ito sa wikang naiintindihan ninyo at bago kayo gumawa ng anumang mga desisyon na maaaring kailanganin sa abisong ito.

આ સૂચનામાં તમારી પાણીની સેવા વિશે મહત્વપૂર્ણ માહિતી શામેલ છે અને તમારા અધિકારોને અસર કરી શકે છે. અમે તમને પ્રોત્સાહિત કરીએ છીએ કે તમે આ સૂચના હેઠળ જરૂરી હોય તેવા કોઈપણ નિર્ણયો લો તે પહેલાં તમે આ સૂચનાને તમે સમજો છો તે ભાષામાં સંપૂર્ણ ભાષાંતર કરો.

Niniejsze zawiadomienie zawiera ważne informacje na temat Państwa przyłącza wodociągowego i może mieć wpływ na Państwa prawa. Przed podjęciem jakichkolwiek decyzji, które mogą być wymagane na mocy niniejszego zawiadomienia, zachęcamy Państwa do przetłumaczenia całości niniejszego zawiadomienia na język, który będzie dla Państwa zrozumiały.

يحتوي هذا الإشعار على معلومات مهمة حول خدمة المياه لديك، وقد يؤثر على حقوقك. قبل اتخاذ أي قرارات قد تكون مطلوبة بموجب هذا الإشعار فإننا نشجعك على ترجمته بالكامل إلى لغة تفهمها.

اس نوٹس میں آپ کی پانی کی سروسز سے متعلق اہم ترین معلومات موجود ہیں اور یہ آپ کے حقوق کو متاثر کر سکتا ہے۔ ہم آپ کو ترغیب دیں گے کہ آپ اس نوٹس کا مکمل طور پر اس زبان میں ترجمہ کروائیں جو آپ سمجھتے ہوں اور ممکن ہے کہ آپ کے کوئی فیصلہ لینے سے قبل اس نوٹس کے تحت یہ درکار بھی ہو۔

Este aviso contiene información importante sobre su servicio de agua y puede afectar sus derechos. Lo animamos a que traduzca este aviso a un idioma que comprenda antes de tomar cualquier decisión que pueda ser necesaria en virtud del mismo.
